### Health guarantee:

Precious Puppies Puppy Kennel (Managers: Paul and Bonnie Crum) hereby guarantees that if the puppy purchased from us should be found to have any **genetic health defects or diseases of canine distemper, canine adenovirus type 1 and 2, parainfluenza, parvovirus, leptospira canicola, and/or L. Icterohaemorrhagiae** by a licensed veterinarian of the buyer's choosing and at the buyer's expense **within 10 days of the puppy transfer to the buyer**, then Precious Puppies Puppy Kennel will reimburse the buyer of the puppy the full purchase amount upon the return of the puppy to Precious Puppies Puppy Kennel provided the following conditions have been met:

1. The buyer contacts Precious Puppies Puppy Kennel (Paul Crum) by phone at 662-284-6991 and/or by email at [paulcrum829@gmail.com](mailto:paulcrum829@gmail.com) within 24 hours of the veterinarian's examination and also returns the puppy within 48 hours to Precious Puppies Puppy Kennel with a signed verification of such findings by the licensed veterinarian whose business location and contact information is provided on the verification. In addition, the buyer must provide a signed verification from the veterinarian that vaccinations due the puppy have been administered according to the schedule provided on the initial vet check document provided by the seller at the time of transfer\*
2. At the discretion of Precious Puppies Puppy Kennel, a licensed veterinarian chosen by Precious Puppies Puppy Kennel also concurs with the findings from the buyer's veterinarian examination.

\*Any costs or fees associated with the buyer's veterinarian examination or treatment shall be the sole responsibility of the buyer. Any costs or fees associated with Precious Puppies Puppy Kennel veterinarian examination or treatment shall be the sole responsibility of Precious Puppies Puppy Kennel. Precious Puppies Puppy Kennel does not assume responsibility for any expenses incurred by the buyer such as transportation costs or any associated veterinarian expenses related to such occurrence.

*It should be noted that puppies sometimes have diarrhea or reduced appetites when transitioning to a new environment or travel. The buyer must monitor the puppy to ensure that it is eating well and drinking plenty of water so that it does not become dehydrated. Puppies also may have sudden drops in blood-sugar levels which may result in lethargic behavior and even convulsions or seizures which may have a very rapid onset of symptoms. During a minimum of the 10 days following transfer of the puppy and for as long as necessary, the new owner should monitor the puppy continuously and provide regular meals and sugar intake such as small amounts of syrup to ensure that proper nutrition and blood-sugar levels are maintained. If an event as described above should occur, immediately rub syrup on the puppies gums and into it's mouth (we have had such occurrences with our own puppies and they returned to normal with a couple of hours following treatment). Note: It is the buyer's responsibility to monitor the puppy at all times to guard against such an event or other accidental injuries, and Precious Puppies Puppy Kennel does not assume responsibility for injury or death to the puppy should such events beyond our control occur after the puppy is transferred to the buyer. Should such events occur, veterinarian consultation and/or treatment is left to the discretion and financial responsibility of the buyer. Precious puppies will not take responsibility for veterinarian bills or issue a sales refund in the event of sickness, injury or death of the puppy due to circumstances which are beyond our control once the puppy has left our care. Thank you.*
